

VALUING SERVICE TYPES & SERVICE LOCATIONS

Please fill out the table below to share your thoughts on the factors that would make a service location **more valuable or important** and factors that would make a service location **less valuable or important**.

- o Use the first two rows to indicate factors that may be unique to a certain type of service location (e.g., “number of hospital beds”).
- o Use the second two rows to indicate factors that might be relevant across multiple different service types.

| | | Service Types | | | | | | | | | |
|----------|--|---------------|------|-----------|------------------|------------|--------------------------|----------------------|--------------------------|-----------------------|--|
| | | Provisions | | | Health & Medical | | Government & Emergencies | | Institutional Population | Education & Workforce | |
| | | Food | Fuel | Hydration | Medications | Healthcare | Government | Shelter & Mutual Aid | | | |
| 1 | What factors would make a service location more valuable ? <i>(specific to service type)</i> | | | | | | | | | | |
| 2 | What factors would make a service location less valuable ? <i>(specific to service type)</i> | | | | | | | | | | |
| 3 | In general, what factors would make a service location MORE valuable? <i>(across multiple service types)</i> | | | | | | | | | | |
| 4 | In general, what factors would make a service location LESS valuable? <i>(across multiple service types)</i> | | | | | | | | | | |
